

## New switch for Hybrid Foamatic controller

Due to a modification from our supplier, we have changed the switch for the Hybrid Foamatic controller into a smaller version with straight (instead of bent) cable sockets.

This means for Hybrid Foamatics produced up till 1st June 2017, the switch will be the original with bent cable sockets – item No. 110005512. (switch without cables – item No. 110004643)

For Hybrid Foamatics produced as from 2nd June 2017, the switch will be with straight cable sockets – item No. 110005513. (switch without cables – item No. 110005506)

Below please find illustration of the new and old switch with cables.
