**Robust** foamer designed for rough environments

Nilfisk FOOD Yeti is a robust tap water foamer with one injector, designed for heavy duty cleaning in the food and beverage industry.

Built in Corona Technology air system is a completely new construction that sets standards within the cleaning industry. Thanks to this system, the air is injected into the water stream over a bigger surface and a higher speed. The result is a better mix of air, compound and water that generates approx. 20% more foam.

Available accessory kit, will enable easy and efficient operation of the unit.
