

# Teat Foam Unit

air-operated

Item Number: F100-TF

The convenience of air power, with the small footprint of a manual pump up unit.

- Dual operation with manual pump and connection for air supply
- 2.6 gallon (10 liter) capacity
- 6 foot (1.8 meter) hybrid TPE discharge hose – lightweight, durable, and chemical-resistant
- Natural color tank for easy visibility of product levels
- Viton seals for chemical compatibility
- Pressure relief valve for safety
- Produces thick, high quality foam

Ideal for smaller farms with up to 100 cows, or for dairies that want to try using foam before investing in a larger system.
