

HYBRID Purflex Hose

A steady and cleaner flow using Silver Ions
Anti Bacteria technology

Nilfisk FOODs Hybrid Purflex hose features both an improved outer and inner layer, giving additional flexibility, chemical resistance and durability to the hose.

The hose is enhanced with an antibacterial Silver Ions Technology, due to which the hose enjoys a constant protection from any germs and bacteria. The addition of silver ions brings the Hybrid Purflex Hose system to a previously unheard level of efficiency.

Keep your cleaning systems up to date, while retaining that Nilfisk familiarity and ease of use – now in a slick, grey design.
