

## Service Information no. 205

### New improved compressor for Typhoon!

---

**We have now changed the compressor for the Typhoon to a type H motor, which can run for a longer period of time during foaming.**

This compressor is more resistant than the previous compressor type. Together with the manufacturer, we have developed a motor type that is able to run continuously in the typhoon cabinet without cutting off on the internal motor protection. This means that the customer now can foam for a longer period of time than previously. We expect more than one hour of foaming ability.

### **Compressor Typhoon 50 Hz Item No. 0604151 EBS 10020219**

Should you need any further information do not hesitate to contact Nilfisk-ALTO Food Division sales department, direct tel. No.: +45 7218 2000.

Best regards
