110002263	24	Swivel joint
110006136	17 (RC20)	Ratchet screw + nut M10

Non return valve material - from stainless steel to plastic

To obtain easier cleaning and maintenance - the material of the stainless steel chemical non return valve (item no 110002522) for Nommo, NAGA and Griff has been changed from stainless steel to plastic.

The stainless steel non return valve will be obsolete as of 1st June 2019.

Besides being easier to clean and maintain, the plastic valve also handles

chlorine products much better than the stainless steel version.

The NEW item no of the NEW plastic non return valve is: 110004434

Hose coupling material - from galvanized steel to stainless steel

From 1st June 2019 the Hose couplings 669500 1/2" male (66950000+66950001 - sleeve and spigot) and 669600 1/2" female (66960000+66950001 - sleeve and spigot) are completely made of stainless steel.

This is mainly done in order to improve the lifetime of the couplings.

- both hose couplings are applicable for all 1/2" hoses.

When ordering - the item numbers will remain unchanged.

Should you need any further information on the above subjects do not hesitate to contact Nilfisk FOOD sales department.

Should you need any further information or assistance do not hesitate to contact the sales department at Nilfisk FOOD.
