

## **New High pressure Hose, New Sensor supplier, New mobile numbers & New online Video guide**

### **New high-pressure hose**

As our original high-pressure hose is no longer available, we have chosen to take in a new high-pressure hose in our program.

The new high-pressure hose is blue with standard press fittings, 1/2" outer thread, and is available in 25m length.

The hose has an inner dia 18.5mm and outer dia 21mm, working pressure 600 bar, 150° C hot water and detergent solutions resistant.

The new high-pressure hose will have the same item No. as the previous hose; item No. 110003182, and EBS No. 10037547.

### **New sensor Supplier**

In the 3rd quarter of 2017 Nilfisk changed to a new supplier of the sensor used on our inlet pipes for dry run 1-16 bar and 0-40 bar on our outlet pipes, pump top. Previously, the sensor was delivered from Danfoss. Our new supplier is Gems.

The sensor is the same and it is produced in the same factory according to the same specifications as earlier. Only the company logo is new.

Spare part numbers also remain unchanged:

110000889      Sensor 1-16 bar

110000890      Sensor 0-40 bar

**Mobile numbers starting with +45 7218 xxx are deleted**

Nilfisk FOOD employees can no longer be reached on the mobile numbers starting with +45 7218 xxxx.

All future calls must be made on our direct mobile numbers starting with +45 2969 xxxx. Last 4 local number digits are unchanged.

Main office number is still: +45 7218 2000!

### **New Online Video "Pressure locked Quick couplings"**

Do you know that Nilfisk FOOD quick couplings mounted on guns and outlets of Main stations and Satellites will be locked if the water pressure will exceed 4 bar?

This means that it will not be possible to remove attached nozzles or hoses during cleaning. This is to ensure safety of the operators and protection from possible injuries, that could occur.

To see how it works, see our newest video ["Safety first - Pressure locked quick couplings"](#)

Should you need any further information do not hesitate to contact Nilfisk FOOD.
